

KIDS' PROGRAMS

2012 SUMMER CAMPS

Geared towards students entering 1st–5th grade in the upcoming 2012–2013 school year, MOR's quality summer camps inspire and engage young learners. Explore a wide range of topics covering all of the Museum's most popular exhibits while meeting new friends, creating original crafts, and playing new games. Join us for one week or come all summer long! Camps fill up fast, so make your summer plans today.

Pricing

\$175 per camper for members

\$210 per camper for non-members

Camp Times*

Monday–Friday 9am–3pm

Registration

Full payment is required upon registration, \$50 of which is non-refundable. Limited scholarship funds are available.

For more camp information, to register, or to submit a scholarship application, please visit museumoftherockies.org or call 406.994.6618.

July 30 – August 3

Astronauts in Training

Dinosaur Detectives

August 6 – 10

Stargazers*

Jr. Paleontologists

August 13 – 17

MOR Medley

MOR Medley

* Stargazers runs M–W, 9am–3pm & Thursday evening from 4pm to 9am Friday morning.

Dinosaur Detectives

Learn about different Montana species including *T.rex* and *Triceratops*. Uncover the periods of the Mesozoic Era and examine how the Earth changed, play dinosaur games, and make dinosaur crafts.

Junior Paleontologists

Become a real paleontologist for the week! "Visit the field" (on MOR grounds) and "discover" a real fossil. Help MOR bring the fossil back to the Museum and clean it after learning the tricks of the trade from a real paleontologist. Prepare the fossil for display and showcase it to friends and family on Friday afternoon!

Astronauts in Training

Train to be an astronaut and "launch-off" on a mission to the Moon. Learn what it means to be a real astronaut, discover how rockets work and launch many of your own. Plus, find out what it's like to live in space.

Stargazers

Learn about planets, stars, and other deep-space objects. Watch planetarium shows, make your own telescope and play space-themed games. Put your new knowledge to work by gazing through telescopes and finding constellations in a special sleepover at the Museum on Thursday night.

Living History

Step back in time and become a member of the Tinsley family for the week. Help around the house with chores and cooking every day, make pioneer crafts, and play pioneer games. Period costumes are welcome (but not required).

Kings, Queens & Emperors

Rule the world (or at least the Museum) in this exploration of Napoleon and other kings, queens, and emperors. Pretend to be a leader of an empire – play strategy games, "go to battle," design your own kingdom and more in this royal camp for young monarchs.

Nanotechnology Camp

Get small and discover the world of nanotechnology (the study of really small things). Find out how nanotechnology has the potential to change the way we live as you try out hands-on experiments and visit with MSU scientists in their labs.

MOR Medley

Spend one day on each of our major topics including: dinosaurs, space, living history, kings & queens, and nanotechnology. This camp is perfect for those campers who want a little bit of everything!
